

## Floating Bed Sizes vs standard bed sizes

scale: 1 inch = 24" (2')

Floating Bed	Model	Inner Dia	Outer Dia	Hoop Color
Small Youth	6'	69"	75"	(not shown)
Large Youth	6' 6"	75"	81"	Orange
Queen	7' 4"	85"	91"	Gold
King	8'	93"	99"	Blue

## Why are Floating Beds Round?

A hanging rectangular bed would actually take up more space in your room than our Round Floating Beds.

Why? A hanging bed will always rotate as it swings.

But the corners on a rectangular bed stick out, which takes a lot of room.

Also, these corners would catch things as they bumped, whereas our round bed has no hard corners to bump or cause problems.

For comparison, look at the drawings.

Notice that a standard double bed, if hanging, would take the same room space as our Queen (7'4") Floating Bed. Yet the double bed has only 70% as much room for you in the bed.

With the tether, you can limit the swing distance to any practical size you want. So allow as much swing space as possible, and simply add the tether if needed.

---

### Floating Bed vs standard bed: Resting Area Comparison

Bed	Resting Area (sq ft)
Twin Bed	19.8
Double bed	28.1
Queen Bed	33.3
King Bed	42.2
Small Youth Floating Bed (6')	26.0
Large Youth Floating Bed (6'6")	30.7
Queen Floating Bed (7'4")	40.2
King Floating Bed (8')	46.2
